

2022 Cabernet Sauvignon

Red Mountain

At Copperfield, we believe great wines are shaped by the places they originate. Our small-lot production is centered on Red Mountain, Walla Walla Valley, and Royal Slope, selecting varietals that are best suited to each AVA's unique conditions. Every wine aims to express balance, purity, and the character of these exceptional Washington regions.

Red Mountain AVA

The Red Mountain AVA is Washington's most powerful growing region, known for warm temperatures, steep slopes, and mineral-rich soils. It produces deeply structured, concentrated wines with intensity and finesse, making Red Mountain a cornerstone of Washington's premium viticulture.

2022 Vintage

Early season cold events reduced overall crop load, which were followed by delayed summer temperatures and a warm harvest season that gave red wines wonderful intensity and well-resolved tannins.

Tasting Notes

The 2022 Red Mountain Cabernet Sauvignon offers aromas of black cherry, blackberry, and warm spice. The palate combines depth and finesse, with structured tannins and a smooth, lingering finish that captures Red Mountain's hallmark intensity.
